

Fortune of Year 2020 for People Born in the Year of the Snake

Career Tip: Work Hard To Make Up For What You Lack, And Be Versatile And Adaptable

This will be a calm—perhaps even boring—year for you. Your fortune is just about average, so as long as you exercise caution in everything you do, there shouldn't be any big problems in sight. Career-wise, unnecessary complications may turn up in your work, so be extra careful and work hard to make up for parts you lack in to ensure that what you've worked hard for will not be destroyed in a jiffy. Also, certain ill-willed backstabbers may attempt to take your accomplishments for themselves, so watch out for such persons just in case.

You are prone to falling for business scams due to greed this year, so remember to not always take things at face value. Also try to be versatile at your job instead of holding on to just one way of doing things. When the situation changes, you must adapt too in order to keep up. If you persist in trusting only what you already know, you may soon be left behind by your competitors. Lucky star "Moon Benevolence" will shine upon you this year, meaning that you will likely be quite popular. Use this opportunity well to establish some meaningful business relationships—the future you will definitely thank you for this! People born in the year of the ox and, to a lesser degree, people born in the year of the rooster, will be

great help in your career advances this year. Forge sincere work relationships with them and your work process will be sped up in leaps and bounds! The luckiest career choices for you this year are those related to "metal" and "water".

Finance Tip: You May Suffer Losses Easily. Also, Don't Be Greedy When It Comes To Gambling

Your finance fortune this year doesn't look too bad, but we don't recommend having high expectations for either your regular income source or other sources, as you will likely be disappointed. While your regular income should be quite stable, an unlucky star "Small Consumptions" in your chart signals excessive spending, so be extra careful when managing your finances this year. You won't have much luck in side income sources, so try to avoid gambling or other risky endeavors. You may fall for a scam during winter, so be very cautious during that period—if you find anything suspicious, consult your friends and relatives first before making a move.

Health Tip: Take Care Of Your Heart And Stomach, And Learn To Relax

The "Death Charm" star is present in your chart this year, so take good care of yourself—or small illnesses may end up becoming serious. Take especial good care of your

heart and stomach. If you sense something off, see a physician immediately instead of waiting it out. You will be emotionally high-strung this year, and prone to headaches and insomnia. Try your best to relax and take care of your mental health. Avoid smoking, drinking alcohol and overeating—these are all things that can greatly harm your health in the year 2020.

Relationship Tip: You'll Have A Lonely Year And May Be Prone To Overthinking

You will have a lonely year when it comes to relationships—not only in the romantic sector but also overall. You'll find yourself drifting away from the crowds, and we suggest trying to take the initiative to communicate with others and blend in more. The relationship between you and your significant other may be anxiety-inducing, and you may find yourself overthinking every little thing. Remember that you can't force love—no matter what happens, it's better to accept it and move on.
