

Fortune of Year 2021 for People Born in the Year of the Dragon

Career Tip: Be Patient And Work Hard

Those born in the year of the dragon will have multiple unlucky stars in this life cycle, with very few lucky ones to balance it out. You can therefore expect a lot of problems to arise and will do well to be prepared in advance. The unlucky “Hooked and Strained” star signifies interpersonal issues in the workplace, for example with your boss or your colleagues. Try to endure it patiently and wait for your chance. The “Sudden Death” star in your life cycle warns that your work developments may often be disrupted halfway, so work hard and see your tasks to the very end.

Luckily, the good-fortuned Moon is in your life cycle this year as well, meaning that someone of the opposite sex may help you a lot in your career, though you'll need to rely on your own self-esteem and perseverance as well. Those born in the year of the chicken and, to a lesser degree, those born in the year of the monkey are your good-luck charms when it comes to your career. Collaborations with such people are likely to lead to success in your work life. Careers involving the elements metal and water will be the most beneficial to you.

Finance Tip: Save Up In Advance For Future Use

Your finance fortune this year fluctuates a lot, so it'd be better to start saving up early for future use. Investments won't be lucrative this year, so try to stay away from that. And certainly don't gamble, as you're unlikely to win at all. If someone tries to convince you to start a company with them, you must consider the offer carefully before making a decision, as this isn't a lucky year for such ventures. The two latter spring months are the period where your finance luck is the worst, so be especially careful then.

Health Tip: Take Care Of Your Stomach And Liver

Your health fortune is also fluctuating this year, so always take care of your personal hygiene and watch what you eat. Your stomach and liver are especially susceptible to illness this year, so don't hesitate to see a doctor if any issues arise. Spring is a time when you may easily contract diseases from others, so stay away from areas that may be disease-ridden. Watch out for drowning accidents in the period between summer and autumn. At the end

of the year, be very careful while driving, and definitely don't drive while drunk or tired.

Relationship Tip: Follow The Natural Course And Don't Force It

Your emotions are unstable this year, and sudden spells of rage may cause conflicts in your relationships, so do your best to keep a calm attitude. There isn't much to say about your love life this year—you'll need to be extra dedicated if you don't want to end up alone. But also remember that it's better to be alone than force a relationship!

Dragon: Buddha Holding Pearl

Amidst all the suffering, the Buddha blesses us all. Lotuses are a symbol of purity, while pearls represent wisdom. In this ornament, a Buddha hand rises from a bog full of lotuses, holding a large, shiny pearl. These three elements together form a peaceful, auspicious scene.

You'll need to be patient and enduring. Your health will also be unsatisfactory, and you have to watch out for drowning incidents. Don't be pushy when it comes to love. Place this "Buddha Holding Pearl" ornament in the north of your quarters, and it will bring you a year of good fortune.
